MIGRANT MOTHERS

SINGLE MOTHERS

ETHNIC MINORITIES

In 2014, they were seen by society and aid agencies as
“unhelpable” or *“cannot make it”* .

Since 2015...

More than 1000 women rendered support on their back to work journey

More than 400 women have been placed in jobs,
140 each year since 2018.

Poverty depletes people in ways beyond finances.

No money for phone top-ups

⑩ Can't communicate and form social capital

No money for ez-link card.

⑩ Can't travel far/often

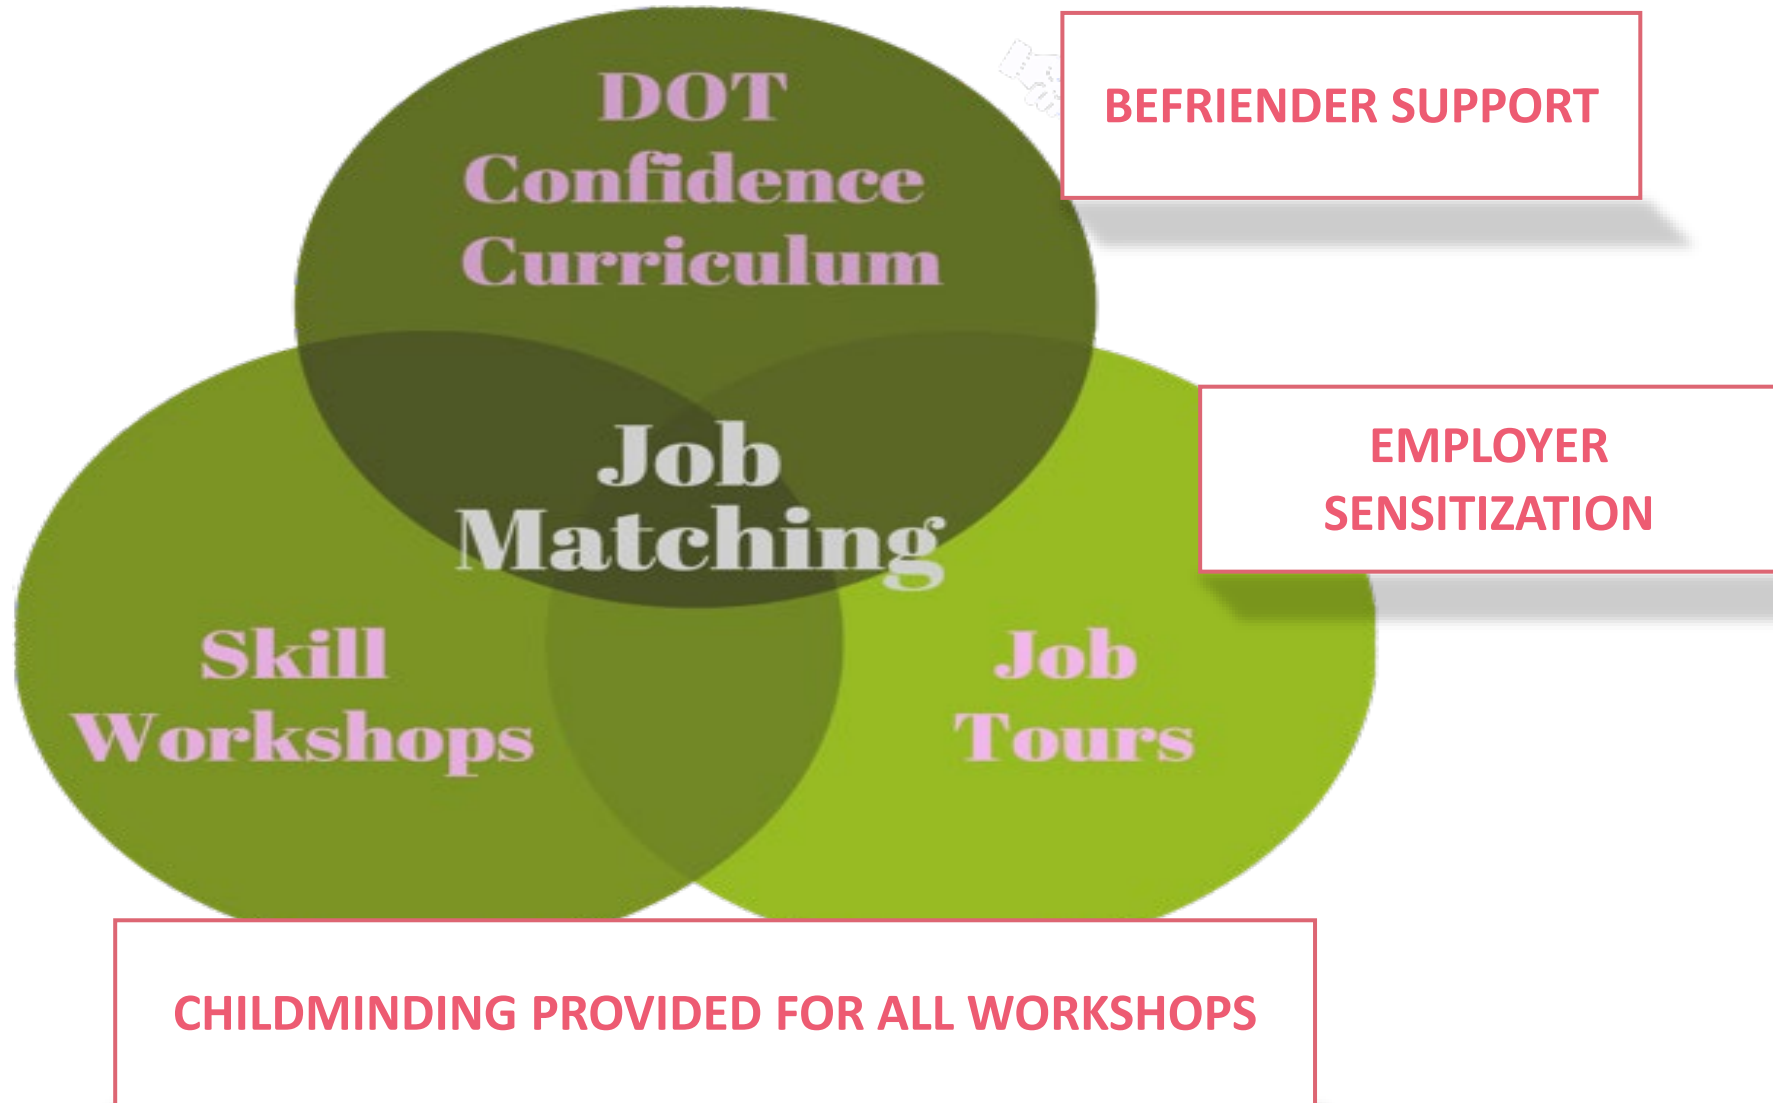

No childcare

⑩ Can't begin to think about getting a job

At least 27% of people with income less than \$20k/year have depression, anxiety and other mental wellness issues¹

We go the extra mile to enable the women.
