ABOUT GREENWATCH

SG Climate Rally (SGCR) and Speak for Climate (S4C) have teamed up for *Greenwatch*, a campaign aimed at garnering greater recognition of the climate crisis and deeper commitments to climate policy during the upcoming General Election (GE) in Singapore.

CLIMATE SCORECARD

Come GE 2020, we will be releasing a **climate scorecard** that will assess all party manifestos to see how they rank in tackling the climate crisis. Our methodology will be released alongside the results.

This scorecard is intended as a resource for voters who wish to be better informed about parties' climate ambitions.

According to this expert, we are already experiencing the effects of climate change in Singapore. And yes, we should be worried.

Criticism

Together

“Wherever possible, we will cooperate with the PAP and find solutions to problems... I want to help PAP in its responsibility of nation-building.”

Mr Chiam See Tong,
speaking to the press right after the
1984 electoral victory
