

GAURAV KEERTHI

CEO AND FOUNDER

better.sg [and formerly of dialectic.sg , confirm.sg, and ex-President of Debate Association (Singapore)]

I do whatever I can to make Singapore a better home. Sometimes that involves flying a helicopter, creating and hosting TV policy debate shows, building websites, hacking, defending our skies against terrorists, teaching kids how to use their voices respectfully/rationally/robustly online and offline, volunteering with minority communities to bridge divides, etc. Sometimes that just involves me gathering awesome people and watching magic happen between them.
