

TALITHA CHIN RUI LING

PRODUCT MANAGER

Open Government Products

Talitha is a Product Manager at Open Government Products (open.gov.sg, OGP in short). In her role, she works with engineers, designers and stakeholders to build products for the public good, and mainly manages parking.sg. She played a key role in establishing OGP to operate as a unit that experiments and implements modern approaches to digital and corporate systems in Government.

Not too long ago, she was working in a foresight think-tank Centre for Strategic Futures under Strategy Group in the Prime Minister's Office where she was researching issues relating to the impact of technology on society/governance. Previously, she was at the Ministry of Trade and Industry working on policies to transform industries. Talitha did her undergraduate studies in Economic History and Economics and a master's in regulation at the LSE. In her free time, Talitha enjoys dancing and getting lost in a great book.
