The Routledge Handbook of Civil Society in Asia is an interdisciplinary reference resource that focuses on civil society – one of the most dynamically expanding sectors in contemporary Asian society. Civil society originally was a product of Western culture; it represents a particular set of relationships between the state and either society or individual in the West. The Handbook will examine Asian social, cultural, political, and historical phenomena from the perspective of civil society, primarily in the post-World War II era. It is explicitly interdisciplinary, with the chapters written by leading academic specialists in fields such as politics, sociology, anthropology and history.
